Quick Update for this week --

Door Signs and Bumper Stickers -- I've put in an order for a couple of dozen magnetic car door signs and bumper stickers for help recruit new Alliance members and spread our message. If you haven't e-mailed me to let me know that you would like to receive a set of magnets and/or a bumper sticker, please do so. I want to be sure to have enough on hand to meet member demand.

Once I have the magnets and stickers in hand, I'll either mail them to people or figure out a central location to meet folks to deliver them.

Meeting with Senator Black (R-Loudoun) -- The Alliance has been offered a meeting with Senator Richard Black, who represents much of Loudoun County in the Virginia Senate, on 6/15/16 at 1 p.m. at his home office in Ashburn. If you are a Loudoun resident, please consider joining me for this meeting to add a local flavor. I'm from Fauquier -- politicians need to know that local voters care about our issues. In this case, that means Loudoun County 66 Alliance members. Please take a look at your calendar and let me know if you can attend this meeting.

Reaction from Congressman Brat -- Just as an FYI, I received a response to a pretty plain vanilla e-mail from the Alliance from Congressman Brat's (R-VA) office. The response basically stated that Mr. Brat opposes all incentives for electric and alternative-power vehicles and wouldn't be supporting the Alliance's efforts. So, for Alliance members who are in Virginia's 7th Congressional District and are presented by Mr. Brat -- FYI. Not sure there is anything to be done about his stance, but he definitely is not a friend on our issues.

Give if You Can -- Please consider making a contribution to the Alliance today -- the magnets, bumper stickers and other expenses of keeping the Alliance going and growing our membership all cost money! Please go to www.66alliance.org/support-66-alliance/ today to make a contribution via PayPal.

Many thanks to all and have a great week! Greg
